

MONSON AND SONS, INC.

May 23, 2008

Dear Driver –

Monson and Sons, Inc is applying for the Department of Homeland Security Customs-Trade Partnership Against Terrorism (C-TPAT) program. The goal of the program is to prevent the smuggling of drugs, explosives or other contraband into the USA. Once certified with this program, it will ease your passage and decrease your inspection times and/or occurrences.

As a driver, you are now required to inspect any load that has come from an international source. Inspect your tractor, trailer/container and record your findings on the C-TPAT Load Inspection form. Answer each section and submit with your regular log sheets. A copy has been enclosed; please make copies. Copies are also available at the office and on the web page.

Please remember this is a now a required procedure just like your logs.

Call Cindy Schack 641.843.4272 ext 113 if you have any questions.

Thanks.

Cindy Schack
